

The graph displays the percentage of people who have ever been in a romantic relationship, categorized by age (18 to 65) and gender (men and women). The x-axis represents age in years, and the y-axis represents the percentage (0 to 100). The solid black line represents men, and the solid grey line represents women. Both lines show a similar trend, peaking around age 25 and then declining, with a slight increase after age 45.

Age (Years)	Men (%)	Women (%)
18	~10	~10
20	~30	~35
25	~55	~55
30	~40	~40
35	~25	~25
40	~40	~45
45	~55	~55
50	~55	~55
55	~15	~20
60	~25	~25
65	~30	~35

A hand-drawn, thick black wavy line on a white background. The line starts at the bottom left, rises to a peak, falls to a trough, rises to a second peak, falls to a sharp drop, and then rises to a final peak before ending. The line has a slightly irregular, hand-drawn quality.
